Treasure in Heaven

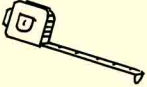

Let your giving be in secret.

Find 12 differences in the second picture.

However, people were doing good deeds with the wrong motives.

Supply letters to name the units of measurement. Then use the letters to find what the people were doing.

- $\frac{I}{1} \frac{T}{2}$ = half of a quart 
- $\frac{NC}{3} \frac{NC}{4}$ = 12 of these make a foot 
- $\frac{O}{5} \frac{T}{6}$ = 3 of these make a yard
- $\frac{MI}{7} \frac{E}{7}$ = 5280 feet or 1.60934 kilometers
- $\frac{GRA}{8} \frac{RA}{9}$ = .035 ounce 
- $\frac{AC}{10} \frac{E}{11}$ = 4840 square feet
- $\frac{NO}{12} \frac{NO}{13}$ = a nautical mile 
- $\frac{E}{14} \frac{ON}{15} \frac{ON}{16}$ = 60 of these make a minute (time)
- $\frac{O}{17} \frac{NC}{18}$ = 16 of these make a pound

Don't make a show of good deeds.

Write the past tense of the verbs. For example, found is the past tense of find. Then use the code to find a better motive for doing good works.

- 1) fix $\frac{\quad}{<} \frac{\quad}{>} \frac{\quad}{\quad} \frac{\quad}{\quad} \frac{\quad}{\quad}$ 4) is $\frac{W}{<} \frac{\quad}{>} \frac{\quad}{\wedge}$
- 2) hear $\frac{\quad}{<} \frac{\quad}{>} \frac{\quad}{\wedge} \frac{\quad}{\quad} \frac{\quad}{\quad}$ 5) play $\frac{\quad}{<} \frac{\quad}{>} \frac{\quad}{\wedge} \frac{\quad}{\quad} \frac{\quad}{\quad}$
- 3) go $\frac{W}{<} \frac{\quad}{>} \frac{\quad}{\quad} \frac{\quad}{\quad}$ 6) can $\frac{C}{<} \frac{\quad}{>} \frac{\quad}{\wedge} \frac{L}{\quad} \frac{D}{\quad}$

$\frac{5}{>} \frac{6}{>} \frac{6}{\wedge} \frac{2}{\wedge} \frac{1}{<} \frac{4}{>} \frac{3}{>} \frac{2}{<} \frac{2}{>} \frac{2}{\wedge}$,
 $\frac{4}{<} \frac{2}{<} \frac{6}{>} \frac{4}{\wedge} \frac{2}{>} \frac{2}{>} \frac{4}{\wedge} \frac{4}{<} \frac{2}{<} \frac{4}{>} \frac{3}{>}$
 $\frac{1}{>} \frac{4}{\wedge} \frac{5}{\wedge} \frac{6}{>} \frac{3}{<} \frac{2}{>} \frac{1}{>} \frac{3}{<}$
 $\frac{4}{\wedge} \frac{2}{>} \frac{6}{<} \frac{2}{\wedge} \frac{2}{>} \frac{3}{>} \frac{4}{<} \frac{1}{>} \frac{5}{<} \frac{5}{<}$
 $\frac{2}{\wedge} \frac{2}{>} \frac{4}{<} \frac{4}{>} \frac{2}{\wedge} \frac{5}{\wedge} \frac{5}{>} \frac{6}{>} \frac{6}{\wedge}$

When giving, they $\frac{10}{\quad} \frac{2}{\quad} \frac{2}{\quad} \frac{6}{\quad} \frac{17}{\quad} \frac{2}{\quad} \frac{15}{\quad} \frac{18}{\quad} \frac{3}{\quad} \frac{13}{\quad}$
W $\frac{3}{\quad} \frac{13}{\quad} \frac{4}{\quad} \frac{13}{\quad} \frac{11}{\quad} \frac{17}{\quad} \frac{9}{\quad} \frac{1}{\quad} \frac{18}{\quad} \frac{13}{\quad} \frac{14}{\quad}$ to be honored by others.
When praying they $\frac{14}{\quad} \frac{13}{\quad} \frac{10}{\quad} \frac{2}{\quad} \frac{16}{\quad} \frac{6}{\quad} \frac{2}{\quad} \frac{14}{\quad} \frac{13}{\quad} \frac{11}{\quad} \frac{18}{\quad} \frac{18}{\quad} \frac{13}{\quad}$
to be seen by others. When fasting,
they $\frac{15}{\quad} \frac{6}{\quad} \frac{11}{\quad} \frac{2}{\quad} \frac{18}{\quad} \frac{11}{\quad} \frac{14}{\quad}$
 $\frac{16}{\quad} \frac{3}{\quad} \frac{14}{\quad} \frac{5}{\quad} \frac{3}{\quad} \frac{8}{\quad} \frac{17}{\quad} \frac{11}{\quad} \frac{18}{\quad} \frac{13}{\quad} \frac{4}{\quad} \frac{18}{\quad} \frac{3}{\quad} \frac{11}{\quad}$
 $\frac{5}{\quad} \frac{10}{\quad} \frac{15}{\quad} \frac{18}{\quad} \frac{14}{\quad}$ to show others.
